Experience

Flutter Developer *Aug 2026 – Present*
Capslock Marketplaces, Bengaluru Website

- Partner with a **cross-functional team** across product, marketing, and business to rapidly prototype, validate, and ship products including **Vokey, ShantiClub, and JhallakAI**.
- Built a reusable **Flutter application template** with production-ready authentication and payment integrations, enabling **low-code MVP development** and accelerating idea validation.
- Track **revenue-critical funnels** including Install-to-Trial, Trial-to-Subscription, and First Recharge to identify conversion gaps and drive **data-informed product improvements**.

Flutter Developer *Dec 2025 – Aug 2026*
Vama Apps, Noida Website

- Served as the **sole mobile engineering owner**, driving architecture and technical decisions, managing **App Store and Google Play releases**, and coordinating with **backend and product teams**; reduced **10+ daily technical queries to 1–2 per week** through improved architecture, documentation, and workflows.
- Led a **Clean Architecture refactor** and redesigned the **networking/API layer**, improving modularity, error handling, and state management with **GetX/Obx**; revamped the **app UX**, optimized launch flows, strengthened **real-time chat on unstable networks**, integrated **Alice API Inspector**, and resolved critical production crashes.

Adda Education *July 2022 – Dec 2025*
Gurugram Website

Software Development Engineer - 1 *July 2023 – Dec 2025*

- Owned **Flutter-based Android & iOS applications** serving **500K+ DAU**, using **Clean Architecture, MVVM, and BLoC**; led Play Store releases and production monitoring with **Firebase Crashlytics and Analytics**.
- Led migration of **Android native modules to Flutter** using **Add-to-App and Method Channels**; built Global Search and Question Reporting with **100% unit test coverage**, integrating **MoEngage, Trackier, Firebase Analytics, and Deep Links**.
- Spearheaded a **Flutter-based Windows desktop application** from the ground up, automating manual workflows and **shipping in 2 weeks** to reduce operational overhead.
- Contributed to launching **Adda Gold** in **20 days**, building core user journeys and leveraging **Cursor, Claude, and Figma MCP** to accelerate development.

Software Development Engineer - Trainee *July 2022 – June 2023*

- Developed Android features using **Java, Kotlin, and XML**, leading key initiatives including **PDP Revamp** and **Free Live Class**.

Technical Skills

- **Mobile:** Flutter, Dart, Android, Java, Kotlin, XML
- **Architecture:** Clean Architecture, MVVM, BLoC, GetX, REST APIs, Add-to-App, Method Channels
- **Firebase & Analytics:** Firebase Crashlytics & Analytics, Firebase Database, Cloud Functions, Mixpanel, MoEngage
- **Tools & DevOps:** Git, GitHub Actions, Fastlane, Jenkins Postman, Figma, Jira, ClickUp
- **AI Development:** Cursor, Claude, GitHub Copilot, Figma MCP

Education

B.Tech in Information Technology *July 2019 – June 2023*
Chandigarh Engineering College, Mohali, Punjab

- GPA: 8.23 / 10.0

Projects

Rumour – Real-Time Chat Application
Flutter, Firebase Realtime Database, Firebase Cloud Functions

- Built a **real-time room-based chat application** using Flutter, **Firebase Realtime Database, and Cloud Functions**, enabling room-code-based access, room-specific identities, and **local data persistence** for reliable chat history and offline access.
